

FOR DESIGNERS, BUILDERS AND DEVELOPERS

Italian kitchens, made to order for your projects

A family business from Southern Italy that designs made-to-measure kitchens and delivers them to projects at home and abroad.

Who we are

Mobilia Arredamenti is a family-run kitchen and interiors business founded in 1993 in Montescaglioso, 20 km from Matera, the UNESCO World Heritage city. For more than thirty years we have designed kitchens and furnished homes with Italian manufacturers we know well, such as Lady Cucine, which builds its kitchens in Matera.

Today we bring the same work to designers, builders and their clients abroad: one Italian partner for the design, the order and the delivery of the kitchen.
